

AMENDMENTS TO CLAIMS

Please amend the Claims as follows:

Claims 1-7 (Canceled).

Claim 8 (New). A pair of adjustable hanger supports for securing walk boards to a wall, each adjustable hanger support comprising: (a) an adjustable vertical riser having vertical adjusting holes and a pop-pin; (b) a horizontal walk board support perpendicularly attached to the lower end of said riser; and (c) an upper, adjustable hanger bracket perpendicularly attached to the upper end of said riser having width adjusting holes and a pop-pin; said riser further comprising swivel adjusting holes on a surface of said riser perpendicular to said vertical adjusting holes, wherein one said adjustable hanger support can be hung by its said hanger bracket from a second wall perpendicular to said wall while its said walk board support remains perpendicular to said wall.

Claim 9 (New). The adjustable hanger supports of Claim 8, said vertical riser further comprising a lower, inner vertical riser section having a securing hole therein and an upper, outer vertical riser section having said vertical adjusting holes and said swivel adjusting holes.

Claim 10 (New). The adjustable hanger supports of Claim 8, said hanger bracket comprising an outer horizontal hanger support perpendicularly attached to the upper end of the vertical riser and an inner horizontal hanger adjusting piece slidably located in said hanger support for adjusting the hanger bracket in the horizontal direction and adapted to accommodate said wall having various widths or surfaces.

Claim 11 (New). The adjustable hanger supports of Claim 8, each said walk board support further comprising an outer, essentially vertical walk board support edge.

Claim 12 (New). The adjustable hanger supports of Claim 11, each said walk board support edge being capable of having an end of a safety feature attached thereto.
